PROFESSIONAL SUMMARY

Highly motivated and technically skilled IT undergraduate with hands-on experience in web development and machine learning. Proficient in Python, SQL, and front-end technologies, with strong problem-solving and communication skills. Eager to contribute to a dynamic team and grow as a Full Stack Developer or Cloud Engineer.

EDUCATION

Bachelor of Technology in Information Technology, Pragati Engineering College, 2021 - 2025, CGPA: 7.7

Senior Secondary (XII), S.H.R.M College, Pithapuram, 2019 - 2021, Percentage: 70%

Secondary School (X), Municipal High School, 2018 - 2019, CGPA: 9.0

TECHNICAL SKILLS

Languages: Python, SQL, Java (Basics)

Web Technologies: HTML, CSS, JavaScript

Tools & Platforms: VS Code, Canva

Concepts: Data Structures & Algorithms, DBMS, OOPs

Soft Skills: Communication, Teamwork, Problem-Solving, Project Management

PROJECTS

Early Heart Disease Prediction System

Developed a machine learning-based web application using Flask to predict the early risk of heart disease from medical input data. The system utilizes the Cleveland Heart Disease dataset and a trained scikit-learn model to deliver real-time predictions based on features like cholesterol, resting blood pressure, and chest pain type.

Emphasized clean UI with Flask templates and ensured reliable offline predictions using a serialized .pkl model.

Skills Used: Python, Pandas, NumPy, Scikit-learn, Flask, HTML/CSS, Data Preprocessing, Model Evaluation, Unicorn (WSGI Deployment)

Email Spam Detection

Flask application that classifies emails as spam or ham using NLP and logistic regression.

Features preprocessing routines, serialized model (spam_model.pkl), and HTML/CSS-based UI for easy interaction.

Tools: Python, Flask, Scikit-learn, HTML/CSS, NLP

Responsive Login Page

Secure, mobile-friendly login interface with form validation and responsive design, ensuring cross-device compatibility.

Tools: HTML, CSS, JavaScript

INTERNSHIPS

Data Engineering Virtual Internship – Eduskills Academy

Worked on data processing and cloud-based tools for scalable data pipelines.

Python Full Stack Virtual Internship – Eduskills Academy

Built full-stack web applications with interactive front-end and Python-based back-end logic.

CERTIFICATIONS

AWS Certified Cloud Practitioner (Valid through August 2027)

Python – HackerRank

AIML - HPLife

ACHIEVEMENTS

Solved 100+ coding problems on LeetCode

NMMS Scholarship recipient in Grade 8

EXTRACURRICULAR ACTIVITIES

Student Coordinator, Strides-2k24, Pragati Engineering College

Actively participated in essays, dance, and storytelling during school
